APPENDIX II.

[Vide answer to starred question No. 569 asked by Sri A. Vedarathnam at the meeting of the Legislative Assembly held on 9th September 1960, page 512 supra.]

Representations have been received by Government that the method adopted for the valuation of lands offered as security for loans issued by Land Mortgage Banks on the basis of pre-war values was too stringent and that sanction and disbursement of these loans took a lot of time especially due to delay in the issue of encumbrance certificates and registration of mortgage deeds by Sub-Registration Officers. So far as the valuation of lands offered as security is concerned, Government have since ordered that such lands should be valued with reference to the average market value

[9th September 1960

of similar lands sold in the vicinity during the five years preceding the date of applications and that Land Mortgage Banks should advance loans up to 50 per cent of the value so arrived at for direct land improvement and up to 40 per cent of the value for the discharge of prior debts. Instructions have also been issued to the officers of the Registration Department that there should be no avoidable delay on the part of the Sub-Registration Offices either in issuing encumbrance certificates or in registering documents, presented by co operative institutions or parties taking loans from them. The question as to how the existing procedure for the issue and disbursement of loan by Land Mortgage Banks could be simplified to enable the issue of loans within the minimum possible time is also under active consideration.

APPENDIX III.

[Vide answer to starred question No. 573 asked by Sri P. G. Manickam at the meeting of the Legislative Assembly held on 9th September 1960, page 516 supra.]

(அ) Licences have been granted by the Government of India to the following undertakings in this State for the manufacture of radio receivers, components required for radios and electronic appliances :—
